

ANIMESH SAHOO

Software Developer | Backend & AI Projects

Tamluk, West Bengal | +91 8250986973 | animeshsahoo451@gmail.com
LinkedIn - linkedin.com/in/animesh-sahoo-b03151302 | GitHub - github.com/Animesh6532

PROFESSIONAL SUMMARY

Computer Science (AI & ML) student with hands-on experience in Python development, software engineering, and AI-based applications. Built projects including an AI interview platform and fraud detection system, with strong skills in Python, Java, MySQL, and problem-solving. Seeking internship opportunities in software development and backend engineering.

TECHNICAL SKILLS

Programming Languages : Python, Java(OOPS), C
Machine Learning : Regression, Classification, Feature Engineering, Model Evaluation
Data Science: Pandas, NumPy, Matplotlib
Frameworks & Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code
Cloud (Basics): AWS(Basic), Google Cloud(Basic)
Database: MySQL

SOFT SKILLS

Problem Solving • Teamwork • Communication • Adaptability

PROJECTS

NeuroPath AI (github.com/animesh6532/NeuroPath)

- Built an AI-powered interview preparation and career guidance platform.
- Developed features like resume analysis, mock interviews, and skill-based feedback.
- Organized the project with frontend, backend, and AI workflow modules.

Transaction Fraud Detection (github.com/animesh6532/Transaction_Fraud_Detection)

- Built a machine learning model to detect fraudulent transactions.
- Performed data preprocessing, feature engineering, and model evaluation.
- Applied classification techniques for fraud prediction and analysis.

INTERNSHIP

Artificial Intelligence & Machine Learning Intern (Kodacy × SPACE (Virtual) | Feb 2026 – Mar 2026 :

- Built a Stock Price Prediction model using Python and Scikit-learn.
- Applied data preprocessing, feature engineering, and visualization using Pandas, NumPy, and Matplotlib.

Data Analytics Intern | Bluestock Fintech | May 2026 - Present :

- Engineered an AI-powered NIFTY100 Financial Intelligence Platform integrating PostgreSQL, Django, Machine Learning, and Power BI.
- Delivered interactive financial dashboards, anomaly detection, forecasting, and company health scoring to generate actionable business insights.

EDUCATION

B.Tech — Brainware University - Computer Science (AI & ML) | 2023 – 2027
Class XII — WBCHSE, Gobindapur High School | 2023 | 79.58%
Class X — WBBSE, Sonapetya High School | 2021 | 83.71%

CERTIFICATIONS

- Artificial Intelligence — Samsung Innovation Campus
- Generative AI — IBM SkillsBuild
- Python for Data Science — IBM SkillsBuild
- AWS Migration — AWS & Simplilearn
- Bootcamp on Big Data & Data Science — NIELIT Kolkata

HACKATHONS & COMPETITIONS

- Smart India Hackathon (SIH) — National Innovation Competition
- Nexathon — Inter-college Hackathon
- Unstop — Technical Challenges and Hackathons
